

16062017

Dear Parents / Caregiver

The school has had an unprecedented growth in new entrants for 2017. This is wonderful for our school community and a good sign that things are going extremely well for Stella Maris and the wider community.

However, this does mean that a decision has been made to make changes in the junior end of the school that will take effect from the beginning of term three, 24th July 2017. Some students will be moving to a new classroom to accommodate the growth. Please be assured that much consideration has been given to this and it is envisaged that this will be a very positive step for your child's learning and development.

Your child _____ will move to St _____ the classroom teacher is _____

I am very happy to meet with you should you have any questions. Please call the office to make a time 4279 189 extn 215 or please email to: achieve@stellamaris.school.nz, I will be only too happy to assist you, or alternatively you can contact Mrs Sue Brading, Associate Principal and SENCo, email: sue@stellamaris.school.nz

The current classroom teacher will be talking with students about the change during the week commencing 26th June to get students familiar with the pending change.

I trust that you will support your child's move and I wish to re-iterate the positives around the changes.

Kind Regards

Alan Watts

School Principal
